

October 16, 2013

14h30 to 17h30

*“Energy Saving
challenges in housing”*

Foundation Universitaire

Rue d'Egmont 11 - 1000 Bruxelles

Brief Description

The European Union adopted an ambitious climate package last year, of striving reduction of emission by 2020, in particular in the energy use in housing. In order to realise these challenges EURHONET, the European Housing Network, will present the challenges of social/public housing through two points of view: buildings and tenants behaviour.

EURHONET Conference

Energy Saving challenges in housing

14h30 Registration

14h40 Introduction Marco CORRADI, *Senior Energy expert FEDERCASA - ITALIA*
Matthieu HORNUNG, *Political Advisor Committee of Regions*

Moderator: Hans-Jürgen BRAUN, *CEO Bauverein AG*

15h00 Building Together – BuildTog

Initiated by EURHONET, the European research and construction project, [BuildTog](#), is driven by four major actors in energy-efficient housing and construction: EURHONET, A/NM/A, LUWOGÉ consult and BASF. The aim is to promote a new type of building, combining several aspects linked to the building. Actually there are 7 BuildTogs under construction across Europe.

Ingvar ANDREASSON, *Senior Adviser at AB Familjebostäder - Sweden*

Henrik MEYER-HOFFMANN, *Architect at BASF - The Chemical Company*

Two Pilot sites' overview:

Arne SCHREIER *Project Manager at Bauverein AG - GERMANY*

Olivier BARRY, *CEO at FSM - FRANCE*

15h30 Maintenance – After

[The IEE-financed AFTER project](#) 's aim is to promote and develop existing European knowledge in the areas of energy saving strategies and encourage their implementation by companies in the housing sector emphasizing the importance of operation maintenance and management in the energy performance of buildings.

Julien BONNET, *Project Coordinator at DELPHIS – FRANCE*

Pau Garcia AUDI, *EACI - European Commission*

15h50 Coffee break

16h15 Tenants - BECA

[The IEE-project BECA project](#) addresses the need to reduce energy consumption in European social housing by a very significant amount to meet overall emission reduction targets.

Linus LARSSON, *Project Coordinator at ÖrebroBostäder AB – SWEDEN*

Pasquale Davide LANZILLOTTI, *Research and Policy Officer at IUT*

European Commission DG Research

Conference's Rapporteur: **Fredrik von MALMBORG**, *Deputy Director of Swedish Ministry of Enterprise, Energy & Communications (TBC)*

17h00 Conclusions **Özgür OENER**, *Vice-President CECODHAS Housing Europe*
