Subject: Invitation to the European Responsible Housing Awards ceremony taking place on 23 November 2016

Dear Partners,

It is both honour and pleasure to invite you **to the Award ceremony which will be held in Brussels on 23rd November 2016**. The event is organized by Housing Europe, in joint cooperation with the International Union of Tenants (IUT) and Delphis.

The European Responsible Housing Awards is an initiative which aims to showcase and reward social innovation and responsible practices on the ground, in collaboration with the Committee of Regions and contributing to the discussions on the Pillar of Social Rights.

After the successful first edition in 2014, which was financed by DG Enterprise as part of the ERHIN project (www.responsiblehousing.eu), 62 applications from different EU countries are now competing for the second edition of the European Responsible Housing Awards.

The discussion at the final ceremony will bring together decision makers and practitioners to share best practices and policies around four crucial dimensions of CSR:

- Local Social Sustainability
- Environmental Sustainability
- Good governance and fair relations with stakeholders
- Responsible human resources management
