Project goals

- To support setting up and developing social housing system in Czech Republic
- To create analysis and experience based methodics
- To pilot test the system of social housing according to the Social Housing Concept of Czech Republic 2015 – 2025, supporting the „Housing First“ approach
- To provide education to social workers in social housing, employment office workers, to test the methodics in practice
- To share information about social housing among key players active in social housing; to inform the public about social housing

Means to achieve the project goals

- International cooperation and transfer of good practice in social housing to Czech Republic
- Analysis necessary for the implementation of SH system
- Methodics for social workers in municipalities and employment offices; linking social work and housing policies with other instruments of social policy
- Creating educational materials for social workers in municipalities, employment offices
- Cooperation with municipalities, creating the Contact centre to provide methodical and informational support to municipalities
- Evaluation and actualization of SH system
- Campaign to inform target groups about the social housing system
