CENTRE FOR
HOUSING EVIDENCE

Objectives

1. Establish an independent housing research centre that provides a leading voice in the UK on housing policy and practice.
2. Produce evidence that fills current gaps in knowledge and understanding, and responds to priorities and demands as they arise.
3. Embed knowledge and understanding in housing policy and practice.
4. Promote innovation and encourage and facilitate researchers across the UK to generate robust housing evidence.
5. Promote effective use of available data through the development and sharing of data and of new methods for analysis.
6. Learn from the past and inform the future of housing policy and practice.
