

More on Life Programme:

The LIFE Programme is the EU's funding instrument for the environment and climate action. It is made of 4 subprogrammes:

SUBPROGRAMME	AIM	FUNDING AVAILABLE FOR...
I. Nature and Biodiversity	Protect and restore Europe's nature and halting and reversing biodiversity loss	Nature conservation projects, in particular in the areas of biodiversity, habitats and species.
II. Circular Economy and Quality of Life	Facilitate the transition toward a sustainable, circular, toxic-free, energy-efficient and climate-resilient economy and at protecting, restoring and improving the quality of the environment.	innovative and best practice solutions projects in the area of the circular economy, including recovery of resources from waste, water, air, noise, soil and chemical management as well as environmental governance.
III. Climate Change Mitigation and Adaptation	Contribute to the shift towards a sustainable, energy-efficient, renewable energy-based, climate-neutral and resilient economy, thereby contributing to sustainable development	Pilot, demonstration and best practice projects in the areas of farming, land use, peatland management, renewable energies and energy efficiency
IV. Clean Energy Transition	Facilitate the transition towards an energy-efficient, renewable energy-based, climate-neutral and -resilient economy	<p>Projects of coordination and support actions, targeted at breaking market barriers that hamper the socio-economic transition to sustainable energy. Projects can be proposed in 5 areas:</p> <ul style="list-style-type: none"> – Building a national, regional and local policy framework supporting the clean energy transition; – Accelerating technology roll-out, digitalisation, new services and business models and enhancement of the related professional skills on the market; – Attracting private finance for sustainable energy; – Supporting the development of local and regional investment projects; – Involving and empowering citizens in the clean energy transition
